

RAPID T10M POWER OPERATED PIPE BENDERS

PIPE BENDING MACHINES MANUFACTURED FOR SWADESIR INTERNATIONAL
IN ITALY

- The "RAPID" power operated pipe benders are fitted with a 'submerged' hydraulic pump for quiet operation and a spring-centred spool valve for easy control of bend angles.
- The radial piston pump is also fitted with a variable relief valve.
- Each model is mounted on a welded steel table with a pump shelf mounted below the bender.
- The "RAPID" benders give 90 one-shot bends* and can also be operated by hand if desired.

THESE MACHINES ARE AVAILABLE IN THE FOLLOWING MODELS:
